

Unity's Statement of Social Action Position

Webster defines the word “unity” as “the state of forming a complete and pleasing whole...” At this time in the evolution of the planet and the lives of human beings upon it, the task of “forming a complete and pleasing whole” is the imperative for positive evolution and harmonious existence for all.

This perspective has seemingly been lost—our wholeness, our oneness, our same-ness as a human race. We must now remember more than ever, that we have much more in common than that which divides us.

The Unity movement stands for and will tirelessly work for harmony so all people may know the freedom of peaceful expression; so they may know their own inner worth and essential contribution to the whole of life.

- Where there are divisions of opinions, beliefs and perspectives, Unity embraces curiosity, exploration and expanded awareness of the gifts of diversity.
- Where there is fear of “the other,” Unity stands for inclusivity and peaceful acceptance of another’s right to create the life of his or her choosing.
- Where there is oppression and hatred, we stand for justice and understanding, and for extending compassion, kindness and forgiveness to restore balance.
- Where there is discrimination, we stand for inclusivity and equality. We pledge to be an advocate for the wellbeing, respect and civil freedom of every human being.

Any proposal or action that seeks to discriminate against individuals or classes of individuals based on prejudiced, stereotypic profiles of national origin, class, creed, race, ethnicity, physical ability, sexual orientation or gender identity is in opposition to the core beliefs and values established by our founders.

We choose Unity. In harmony with the divine Spirit we stand, so we may live in a spiritually awakened world that is continually evolving.

This is our prayer and our decree. Through our actions, we let it be.
